

## DHG-9030A BLAST DRYING OVEN

Application fields: industrial and mining enterprises, laboratories, scientific research institutes, etc.

- ✓ Drying
- ✓ Curing
- ✓ Sterilizing
- ✓ Melting

### Micro-computer Temperature Control

Temperature controller with timer function to ensure precise and reliable temperature control.

#### Micro-computer PID

1. High precision temperature control
2. Intelligent LCD display
3. Easy operation
4. Built in chip

### Product Features

#### 304 stainless steel shelf

- ▶ Anti-corrosion, durable
- ▶ High temperature resistance
- ▶ Good toughness

#### Large volume chamber

Cuboid chamber maximizes effective volume

#### Observation window

Double tempered glass windows for easy observation

#### Switch and Regulator

- ▶ Stepless speed regulation
- ▶ Adjust the size of the wind
- ▶ Easy to operate

### Product Parameters

| Model                        | DHG-9030A                  |
|------------------------------|----------------------------|
| Power Supply(V/Hz)           | 220 50/60                  |
| Shell Material               | Spray-paint Anti-corrosion |
| Liner Material               | 304 Stainless Steel        |
| Temp. Range(°C)              | RT+10~250/300              |
| Temp. Stability(°C)          | ±1.0                       |
| Temp. Analysis(°C)           | 0.1                        |
| Working Temp(°C)             | +5~40                      |
| Input Power (W)              | 850                        |
| Chamber Capacity (L)         | 40                         |
| Inner Dimension (W*D*H,mm)   | 340*310*340                |
| Overall Dimension (W*D*H,mm) | 620*580*480                |
| Shelves (Pcs)                | 1                          |
| Time Range(min)              | 1~9999                     |
| Optional Configuration       | Explosion-proof            |

TIPS: 110V/60Hz can be customized
